

**CIA INTERNAL USE ONLY**

6. (Unclassified - GLC) Bill Broydrick, on the staff of Representative Les Aspin (D., Wis.), asked if we had any information on how this Government or any other government had used the denial or cut-off of spare parts, training, etc., for political purposes. I told him that what this Government did was not our bag but I would check and see if I could give him any information with respect to other governments.

7. (Unclassified - GLC) Talked with Mike Schley, a congressional intern in the office of Representative Albert Quie (R., Minn.). Schley had called in to see if the Agency provided any tours of the Headquarters building. I told him that we give no tours as such, and that there wasn't anything to see, but that I would drop by his office to talk with him and another intern about a walk-through of the building in the near future.

8. (Confidential - GLC) Jack Boos, House Select Committee staff, called to say that the investigation of Searle Field has been approved by the Committee for access to information up to and including Secret. Boos said that he and Field wanted to come out to the Agency this afternoon to review the material that he (Boos) saw last week and any additional material referred to in the book. He also said that they would like to talk to someone who had knowledge of the information contained in the book. He said further that he would like to give us a list of Agency people, presumably former employees, so we could check on their whereabouts. After checking with Messrs. Knoche and [redacted] arrangements were made for Field and Boos' visit this afternoon. Boos mentioned in passing that not all of the security regulations were approved last week.

9. (Internal Use Only - LLM) In response to his request, stopped by and saw Brian Atwood in the office of Senator Thomas F. Eagleton (D., Mo.). He gave me a copy of the Senator's speech of 3 June, for which [redacted] had given the Senator and Atwood a background briefing. The thrust of Eagleton's speech is that while the alliance with the repressive Park regime may be "unholy" its ending would be potentially more dangerous than its continuation.

10. (Internal Use Only - LLM) Met with Bill Hogan, House Armed Services Committee staff, and reviewed with him certain matters concerning the GAO audit of the Agency's liquidation [redacted] He said he would back us up completely on the letter from Mr. Cary to Mr. Fascik, a copy of which is in his possession. I explained the two problems involved and he will handle the matter tactfully during his interim session with the GAO people tomorrow.
